

$$X_1 = \begin{pmatrix} \alpha + \beta + \gamma \\ \alpha \\ \beta \end{pmatrix}$$

# Campus Challenge 2017

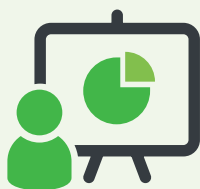

[www.overleaf.com/challenge2017](http://www.overleaf.com/challenge2017)

Join the Overleaf Campus Challenge and win free Overleaf Pro Accounts for everyone at your institution!

**What is it?** The Overleaf Campus Challenge is a 3-month contest for you and your classmates to win a free year of Overleaf Pro Accounts for your whole institution.

*create*

*present*

*publish*

*teach*

**How does it work?** It's easy and free! Everyone who signs up from your institution – including students, faculty and staff – will earn 'ducks' for working on Overleaf. Each duck adds to your institution's total in the challenge and at the end of the challenge, March 31, 2017, the institution with the most ducks wins free Overleaf Pro accounts for everyone at that institution!

**What is Overleaf?** A free scientific authoring tool with full LaTeX editing and 1000's of templates – papers, grants, thesis, journal articles, CVs, books and more!
